The Guardian House Project

We are pleased to announce our participation in support of the Guardian House and its goal of providing a transitional home for women veterans.

This is the first V. A. approved residence for homeless female veterans in this area of the state, and will be opening in the summer of 2011. The Guardian House, which is located at 1214 Route 50, Ballston Spa, is able to house up to 11 women, who may stay up to 2 years.

Our commitment to the project is to provide quilts to the arriving women for their use while at the home and to take with them when they leave for their new endeavors.

We are offering discounts on materials used in the making the quilts and are seeking the help of those interested in helping with this project. A block, some time, a donation towards quilting and finishing expenses, whatever you feel you could assist with would be appreciated.

For more details please feel free to contact Barbara or Vicki.
